PROJECTS

Job finder website / React.js

- About project I developed a job finder website using React Router to manage navigation. The site includes four main sections: Home, Jobs, Career, and Contact. This setup allows users to smoothly transition between different parts of the site, offering an intuitive and efficient way to explore job listings, career advice, and contact information. The use of React Router ensures a dynamic and responsive user experience throughout the website.

Personal Portfolio Website / HTML, CSS, JavaScript

- About project I designed a dynamic and visually appealing portfolio website with full responsiveness. The site is organized to showcase all relevant details about myself, including my name, social media links, projects, and resume. It provides a comprehensive and accessible presentation of my work and professional background, ensuring that visitors can easily navigate and view the information on any device.

Barber shop webpage / HTML, CSS, JavaScript

- About Project I developed a fully responsive website for a barber shop, featuring a comprehensive range of services such as hair cutting, dry shampoo, and beard trimming. The site includes a user-friendly interface that effectively presents detailed information about each staff member. This design aims to enhance customer engagement and satisfaction by providing easy access to service details and staff profiles, ensuring a seamless and informative experience for visitors.

INTERNSHIP

Oasis Infobyte 1-12-2023 – 1-1-2024

Web Development and Designing

- During my web developer internship at Oasis Infobyte, I gained hands-on experience in designing and implementing responsive web applications using HTML, CSS, and JavaScript. I worked on various projects, collaborating with cross-functional teams to enhance user interfaces, improve site performance, and ensure mobile compatibility.

Code Soft 19-7-2024 – 19-8-2024

Web Development

- During my one-month web development internship at Code Soft, I learned a variety of skills and successfully completed several projects, including a calculator, a landing page, and a portfolio webpage, which enhanced my practical experience in web development.

ACHIEVEMENTS

I have solved over 180 questions on GeeksforGeeks, LeetCode, and CodeStudio, enhancing my problem-solving skills and coding proficiency through diverse and challenging exercises on these platforms.

Star Performer of AICTE Oasis Infobyte Internship – for exceptional dedication and outstanding contribution during tenure.

CERTIFICATIONS

- Fundamental of 'C++' Programming (E & ICT Academy, IIT Kanpur)
- Fundamental of Python Programming (YBI Foundation, Scaler)
